

Salus Services Limited

Health & Safety • Engineering • Occupational Hygiene

Salus Services Limited is a small independent consulting and training firm specializing in health & safety, occupational hygiene, and related engineering services. For more information please visit our website at www.salus.bc.ca. We are currently looking for technically skilled, practical, and motivated health and safety professionals in the following areas.

OCCUPATIONAL HYGIENE CONSULTANT

Typical Responsibilities:

- Working on a variety of occupational hygiene and health and safety projects (i.e., worker exposure monitoring, indoor air quality investigations, program and procedure development for a variety of topics from confined space to workplace violence).
- Field investigations, sampling and the preparation of written reports.
- Developing and delivering training and education sessions.

Education:

- Bachelor degree in a science or engineering, and
- Postgraduate degree in Occupational Hygiene (or college Health and Safety Diploma).

Experience:

- A minimum of 3 years work experience is required for this position.
- Familiarity with the British Columbia regulatory environment (e.g., WCA and OHSR)
- Previous consulting or industrial experience would be an asset.

SAFETY SPECIALIST

Typical Responsibilities:

- Health and safety program auditing.
- Worker exposure monitoring and the preparation of written reports.
- Hazardous materials management.
- Health and safety program and procedure development.
- Developing and delivering health and safety training and education sessions.

Education:

- College (e.g., BCIT) Health and Safety Diploma, or
- Equivalent work experience (with CRSP).

Experience:

- 3 to 5 years safety experience in industrial, manufacturing, or construction is required for this position.
- Familiarity and strong understanding of the British Columbia and federal regulatory environments (e.g., WCA, OHSR, CLC, COSHR)
- Previous consulting experience would be an asset.

Safety professionals with either safety program administration experience or those with strong technical skills will be considered.

Both positions require individuals who are well organized self-starters, who work well both independently and as a member of a consulting team. Individuals must have strong interpersonal, communication and time management skills. Strong written communication skills are a must (ability to write clear, concise reports and other correspondence) and good computer skills with familiarity with Microsoft Word, Excel and PowerPoint. Prior experience in developing educational and training materials, and above average training and education skills are also required.

These positions are located in Surrey and require a vehicle and the ability to travel to client sites within the Lower Mainland, with occasional out-of-town travel. These are full-time permanent positions (with benefits); remuneration will be based on the selected candidates' level of education and experience.

If you are interested in becoming a part of a multidisciplinary consulting team, please mail or email your resume (complete with cover letter) in confidence to:
